

## EXTERIOR TREATMENT PREP GUIDE

### Checklist:

- Remove pet dishes and toys
- Clean all pet feces from yard
- Remove children's toys
- Close all windows in your home
- Ensure the lawn is freshly cut
- Flag any ant hills in your yard (if having the ant treatment)
- Turn off your irrigation system (48 hours)
- Ensure deck furniture is moveable if necessary
- Remove or store any GENERAL HAZARDS such as garden tools, down spouts or outdoor accessories that may be in the way
- Spray will not harm plants, but if you have any garden items you want to protect (ie. tomatoes, peas), cover them prior to us coming.

**Your Air Conditioning does NOT have to be turned off.**

**Weather conditions could postpone your treatment.**

**Once treated, if the product doesn't lock in we will retreat the area.**

**Keep children and pets indoors while treatment is taking place.**

**It is safe to go around the treated area once the product has dried (approximately one hour later).**
